## **PREFACE**

“Discovery” is the bedrock of all inventions that have ever taken place in the world. Man is daily involved in endless research to discover the best and more efficient ways to deal with various human problems. Man meets one problem or the other as he moves from one stage of life to the other.

Therefore, man's search for solutions to his various problems are endless, as one discovery would usually lead to some new problems, leading to yet another discovery to improve what he has already discovered. One discovery leads to another discovery, and the circle continues endlessly. These discoveries have helped man to escape the dire consequences of his ignorance his greatest disease.

“DISCOVER TO RECOVER” are the key words in this book. The discovery you will make after reading this book will lead to your recovering what the enemy of your soul has stolen from you.

Of course, “Until you are in the know, you will not be in the flow”. Until you discover, you may never recover. Yes, unless you discover your potentials, you may never realize how much impact you can make in your society or your immediate environment.

It is a well-known fact that until a man discovers what is wrong with him in a given situation, he will have an uphill task finding a solution to his problem.

This lack of knowledge has led to multitudes all over the world wallowing in untold hardships. Many people live the life of trial and error. They try one method after the other in order to solve their ever increasing problems. Many eventually end in more complex problems than they had ever imagined.

You may wonder why this is so. The Bible, God's word, is very explicit concerning this:

*“My people are destroyed for lack of knowledge”. (Hosea 4:6a)*

Friend, do you know that the difference between a winner and a loser does not depend on physical energy but on the knowledge each possess, based on discovery or lack of it?

Those who seem to have made it in life today are not necessarily more educated than others; they may not have been born with the proverbial silver spoons in their mouths. The secret behind the success they have achieved lies in what they have “discovered” through knowledge and the accurate application of it. This is the secret behind their dreams becoming realities.

Let me show you a Bible story to illustrate my point. Look at Genesis 28:16:

*“And Jacob awaked out of his sleep, and he said, surely the Lord is in this place; and I knew it not.”*

Here was Jacob who did not know that God the Father, the Owner and Protector of his life was right there in the same room where he was. He was ignorant that the source of his miracle and breakthrough was there, in the same place he was, until he discovered it for himself. But he had to awake out of his sleep to discover that God was where he was. He “recovered” himself as soon as he “discovered” God, and thereafter lost the fear of his brother, Esau, forever.

This Bible incident is where many find themselves today.

Ignorant Jacob did not know how close God was to him. Today, many people are running from pillar to post looking for the God that is closer to them than they can imagine. They do not know that the “solution” to their problems is with them. The miracles and breakthroughs they have been seeking for have been there all the time they were running around.

I call on you to wake up of your spiritual sleep. This must happen before you can discover the source of you problems. This “discovery” will then lead to your “recovery”, just as Jacob “discovered” before he could “recover”.

”DISCOVER TO RECOVER” is a great spiritual eye opener. I intend to provoke you into serious thinking; I wan to push you to a place where you will take a retrospective look at you past and discover how your past is affecting your present.

You must “Discover” to “Recover”. Do you know you were not born to be a loser? Nobody was born a failure. Nobody was born with “bad luck”. You were not created to live in poverty. John wrote that *“Jesus is the light that lighteth every one that cometh into the world”* (**John 1:9**).

Light represents progress, success and victory. That was what you were born with when you entered into the world. Darkness was not part of the package you entered the world with.

But let me ask you: “where is that light now? Why are you now covered with great darkness?” The answer is in this book. You must “discover” what has happened to your light, and then you will be on the road to “recover” your self from the darkness that has covered you.

Let me show you how you were born a winner.

You became a winner right from your mother's womb. Listen to me. Medical science has it that a husband releases millions of spermatozoa into his wife's uterus in order for an egg to fertilise and become a foetus. That was what your father did, and during the race inside your mother's womb, you outran the other spermatozoa and got into the egg in your mother's ovary that produced you. Others could not make it; you reached there before them. They, therefore, declared you the "winner," gave up the race and died.

Your victory started from the womb; nothing could stop you then, so nothing should stop you now. That was how you started life: a winner. You have no right to live as a failure. Why must you? Why? I ask you. You must realize the way you started life so that you can reject anything contrary to your character. It is not in your character to fail.

Friend, brace up yourself: you were created a winner, a victor and an achiever. Yes, you were created to live in abundance. Therefore, rise up and change this handwriting of setbacks, failures and poverty written all over you. Here is the secret: “
